

## VIRTUAL CLASSES

*For the 2020-21 season, C-Unit Studio is proud to offer a virtual alternative for classes at a discounted price! We want to ensure your dancer is able to continue dancing, learning, and growing from the comfort of your home.*

### **The ULTIMATE virtual experience:**

- Every studio at C-Unit is now equipped with a 4k Streaming studio system! Studio A and B are both equipped with projectors that display the dancers on zoom in 130 inch displays, and Studio C has an 86 inch monitor above the ballet barres. Each room is fully microphoned (both for the surrounding studio and the individual teacher), and has direct audio feeds for dancers on Zoom (both for the music and the teacher's voice). Finally, each studio has TWO camera views that the teacher can easily switch depending on what the dancers are working on and where they are in the room.
  
- **What does all of this mean?!**
  - Teachers can now view dancers on Zoom almost as if they are in person. This means personalized corrections, feedback, and more!
  - The new audio systems ensure that many of the usual "zoom" issues such as choppiness, lags, etc. are minimized for virtual dancers.
  - This is as close to taking class in person as you can get!!
